# 8 core sectors' output rises by 9.4 pc in July

PTI | NEW DELHI

The output of eight core sectors grew by 9.4 per cent in July, mainly due to a low base effect and uptick in production of coal, natural gas, steel, cement and electricity, official data showed on Tuesday.

The eight infrastructure sectors of coal, crude oil, natural gas, refinery products, fertilisers, steel, cement and electricity had contracted by 2.6 per cent in July 2020 due to the nationwide lockdown imposed to control the spread of Covid-19.

# India's economic activity picking pace, further upside to growth likely: Moody's

Moody's Investors Service on Tuesday said the economic activity in India is picking up with the gradual easing of Covid restrictions and there could be further upside to growth as economies around the world gradually reopen.

In its August update to 'Global Macro Outlook 2021-22', Moody's retained India's growth forecast for the 2021 calendar year at 9.6 per cent and 7 per cent for 2022.

"In India, economic activity is picking up alongside a gradual easing of restrictions that were imposed in response to the second wave. And there is further upside to growth as economies around the world progressively reopen," Moody's said.

The rating agency said it expects India to maintain an accommodative policy stance until economic growth prospects "durably improve." We expect the RBI... To maintain the status quo

until the end of this year. We expect to see an increasing number of emerging market central banks shift to a neutral policy stance and their pathing up with the gradual easing of Covid restrictions and there could be further upside to growth as economies around the world gradually reopen.

GDP growth in the current fiscal was estimated to be double digits initially, but a severe second wave of the pandemic had led to various agencies cut growth projections. Moody's had in June projected a 9.3 per cent growth for the current fiscal ending March 31, 2022.

It said the rapid global spread of the highly contagious delta variant of the coronavirus is a stark reminder that the global pandemic is far from over. High-growth economies appear to be highly effective at suppressing the severe disease, reducing the need for hospitalisations and lowering the incidence of fatalities.

# BULLS ON RAMPAGE Sensex surges past 57,000-mark, Nifty scales 17,000

Equity benchmarks galloped to record highs for yet another day on Tuesday, with the Sensex closing above 57,000 for the first time while the Nifty scaled the 17,000-mark as investors remained in buying mode amid growth optimism and bullish global cues.

The broader NSE Nifty extended its winning streak for the seventh day, rallying 20.15 points or 1.19 per cent to end its time closing peak of 17,132.20. It touched an intra-day record of 17,153.50.

India's macroeconomic fundamentals are much stronger, and the country is all set for robust growth on the back of structural reforms, the government's capex push and rapid vaccination, Chief Economic Adviser KV Subramanian said on Tuesday.

India's economic growth surged to 20.1 per cent in the April-June quarter of this fiscal, helped by a low base in the year-ago period, amid a devastating second wave of the COVID-19.

# Need to conclude loan guarantee scheme for medical infra in non-metros in time: FM

Finance Minister Nirmala Sitharaman on Tuesday asked all stakeholders to conclude the ₹50,000 crore Loan Guarantee Scheme for Covid-Affected Sectors aimed at shoring up healthcare infrastructure in non-metros in time to deal with any future third wave.

# Indian aviation industry may incur losses worth ₹26,000 cr in FY22: Report

Indian carriers will see reduced until they are able to stress their debt burden through a combination of improvement in operating performance and 7 or through equity dilution.

# Pvt airport operators expected to spend ₹42K cr on capacity expansion: Crisil

Private airport operators are expected to spend around ₹42,000 crore on capacity expansion over the five years through fiscal 2026 as they are confident of air traffic growth in the long term.

# Centre's fiscal deficit touch 21.3 pc of annual target at June-end

The central Government's fiscal deficit stood at ₹3.21 lakh crore or 21.3 per cent of the budget estimates at the end of July, as per the data released by the Controller General of Accounts for July 2021.
