MANAGEMENT DISCUSSION AND ANALYSIS REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Board of Directors is pleased to present the business analysis and outlook of Superior Finlease Limited based on the current government policies and market conditions. The company business is to finance the industrial enterprises or other persons by way of lending and advancing money.

INDUSTRY OVERVIEW

NBFCs have been playing a complementary role to the other financial institutions including banks in meeting the funding needs of the economy. They help fill the gaps in the availability of financial services that otherwise occur in the unbanked & the underserved areas.

The NBFC segment has witnessed considerable growth in the last few years and is now being recognized as complementary to the banking sector due to implementation of innovative marketing strategies, introduction of tailor made products, customer-oriented services, attractive rates of return on deposits and simplified procedures, etc.

NBFCs have been at the forefront of catering to the financial needs and creating livelihood sources of the so-called non bankable masses in the rural and semi-urban areas. Through strong linkage at the grassroots level, they have created a medium of reach and communication and are very effectively serving this segment. Thus, NBFCs have all the key characteristics to enable the government and regulator to achieve the mission of financial inclusion in the given time.

OUR INDUSTRY SEGMENT

The Non-Banking Financial Companies (NBFC) Sector is still struggling for its growth in India. The NBFC Sector is doing much better all over the world as compared to Asian Countries as the general perception about NBFC in the mind of public is still hazy.

The main objective of the Company is to finance Industrial Enterprises by way of making loans and advances to industrial enterprises in India and to carry out all such activities as may be ancillary to the achievement of main objectives of the Company. The industry structure relevant to the Company's operations is mainly concerned with the capital market. The NBFCs have attracted substantial investments during the recent years both from the retail and from the wholesale side. The growth also has been significant during this year.

Your Company's performance for the year 2024-25 has to be viewed in the context of aforesaid economic and market environment.

BUSINESS

The Company is engaged in the business of providing loans and advances. The Company is registered as Non-deposit taking Non-Banking Finance Company with the Reserve Bank of India. Since the asset size of the company is not more than Rs. 500 crores and hence is presently categorized as Non-Systemically Important Non-Deposit taking NBFC.

OPPORTUNITIES AND THREATS

Over the years, your Company has achieved an appropriate balance between risk and returns by setting up an efficient risk mitigation system to meet various forms of financial and other risks. The primary risks that the company is exposed to credit risk, market risk and operational risk. Deriving from the long years of experience in NBFC sector your Company's credit policy framework is designed to provide the right balance between business growth and portfolio quality.

OUTLOOK AND FUTURE PROSPECTS

Competition continues to be intense, as the Indian and foreign banks have entered the retail lending business in a big way, thereby exerting pressure on margins. The erstwhile providers of funds have now become competitors. NBFCs can sustain in this competitive environment only through optimization of funding costs, identification of potential business areas, widening geographical reach, and use of technology, cost efficiencies, strict credit monitoring and raising the level of customer service.

RISKS & CONCERNS

In today's complex business environment, almost every business decision requires executives and managers to balance risk and reward. ANNEXURE- B TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (1) of Sub- section (3) of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of SUPERIOR FINLEASE LIMITED as on 31st March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for the Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of fraud and errors, the accuracy and completeness of accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the Guidance Note) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material aspects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidences we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that: -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and the receipt and expenditures of the Company are being only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and could not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and accordance to the explanations given to us, the company has, in all material respects, an adequate internal financial controls system with reference to the Financial Statements and such internal financial controls were operating effectively as at March 31, 2025.

1. Corporate Information:

SUPERIOR FINLEASE LIMITED is a public company domiciled in India and registered under registrar of companies Delhi. The company is operating as a Non-Banking Finance Company in India.

2. Significant Accounting Policies:

(a) Statement of Compliance:

The standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015. These are Company's first financial statements prepared in accordance with Ind AS and Ind AS 101 'First time adoption of Indian Accounting Standards' has been applied. An explanation and effect of transition from Indian GAAP (Referred to as "Previous GAAP") to Ind AS has been described in note 2(c) to these standalone Ind AS financial statements.

(b) Basis for preparation of the standalone Ind AS financial statements:

The standalone Ind AS financial statements have been prepared under the historical cost basis which is generally based on the fair value of consideration given in exchange for goods and services.

(c) First-Time Adoption of Ind AS

The Company has prepared its first Indian Accounting Standards (Ind AS) compliant standalone financial statements for the periods commencing from April 1, 2021 with restated comparative figures for the year ended March 31, 2025. The Company has prepared these standalone financial statements in accordance with Ind AS notified under Section 133 of the Companies Act, 2013. Accordingly, the Balance Sheet in line with Ind AS transitional provisions has been prepared as at April 1, 2021 i.e. the date of Company's transition to Ind AS.

Ind AS 101 also allows to first time adopter certain exemptions from the retrospective application of certain requirements under Ind AS. Accordingly, the company has availed the following exemptions/mandatory exceptions as per Ind AS 101:

(i) Fair Value as Deemed Cost Exemption: -

The company has elected to measure items of property, plant & equipment and intangible assets at its carrying value at the transition date.

(ii) Investments in subsidiaries, joint ventures and associates: -

The company has elected to measure investment in subsidiaries, joint venture and associate at cost.

(iii) Classification & Fair value measurement of financial assets or financial liabilities at initial recognition: -

The financial assets and financial liabilities have been classified on the basis of facts existing as at the date of transition to Ind AS. In addition, the exemption permits prospective application of requirements of Ind AS 109 to transactions entered into on or after date of transition.

(d) Use of Estimates:

The preparation of standalone financial statements requires the management of the company to make estimates and assumptions that affect the reported amounts of assets and liabilities on the

date of the financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised.

(e) Critical accounting estimates

(i) Income Taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

(ii) Impairment of Investments:

The carrying value of investments is reviewed at cost annually, or more frequently whenever, there is indication for impairment. If the recoverable amount is less than the carrying amount, the impairment loss is accounted for.

(iii) Provisions:

Provisions are recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

(f) Property, plant and equipment

Properties, Plant & equipment are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction/installation stage.

The Company has chosen the cost model for recognition and this model is applied to all class of assets. After recognition as an asset, an item of PPE is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

Depreciable amount of an asset is the cost of an asset less its estimated residual value.

Depreciation on Property, Plant and Equipment, including assets taken on lease, other than freehold land is charged based on Straight Line method on an estimated useful life as prescribed in Schedule II to the Companies Act, 2013. The useful life of asset taken into consideration as per Schedule II for the purpose of calculating depreciation is as follows: -

Particulars of Property, Plant & Equipment	Useful life (in years)
Furniture & fixtures	10
Office equipments	5

An item of Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment are determined as a difference between the sale proceeds and the carrying amount of the asset and is recognized in the profit and loss.

At the end of each reporting period, the Company reviews the carrying amounts of tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss.

(g) Intangible assets and amortisation thereof

Intangible assets, representing software is initially recognised at cost and subsequently carried at cost less accumulated amortisation and accumulated impairment. The intangible assets are amortised using the straight line method over a period of five years, which is the Management's

estimate of its useful life. The useful lives of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

(a) Revenue recognition:

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company & revenue is reliably measured.

- (i) Interest Income: The Company recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost. EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.
- (ii) Dividend: Dividend income from investments is recognised when the shareholders' right to receive payment has been established which is generally when the shareholders approve the dividend.
- (iii) Other revenue from operations: The Company recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(b) Financial Instruments:

(i) Financial Assets: -

Recognition and initial measurement: -

Financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument and are measured initially at fair value adjusted for transaction cost.

Subsequent measurement: -

Equity instrument and Mutual Fund: - All equity Instrument and mutual funds within scope of Ind-AS 109 are measured at fair value. Equity instrument and Mutual fund which are held for trading are classified as at fair value through profit & loss (FVTPL). For all other equity instruments, the Company decided to classify them as at fair value through other comprehensive income (FVTOCI).

Debt instrument: - A 'debt instrument' is measured at the amortised cost if both the following conditions are met. The assets is held within a business model whose objective is to hold assets for collecting contractual cash flows, and contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

De-recognition of Financial Assets: -

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or Company has transferred its right to receive cash flow from the asset.

(ii) Financial Liabilities: -

Recognition and initial measurement: -

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. Financial liabilities are classified at amortised cost.

Subsequent measurement: -

Subsequent to initial recognition, these liabilities are measured at Amortised cost using the effective interest rate method.

De-recognition of Financial liabilities: -

Financial liabilities are derecognized when the obligation under the liabilities are discharged or cancelled or expires. Consequently, write back of unsettled credit balances is done on closure of the concerned project or earlier based on the previous experience of Management and actual facts of each case and recognized in other Operating Revenues.

Further when an existing Financial liability is replaced by another from the same lender on substantially different terms , or the terms of existing liability are substantially modified , such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

(iii) Offsetting of Financial Instrument: -

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on net basis, to realize the assets and settle the liabilities simultaneously.

(iv) Impairment of Financial Assets

Equity instruments, Debt Instruments and Mutual Fund: -In accordance with Ind-AS 109, the Company applies Expected Credit Loss model for measurement and recognition of impairment loss for financial assets. Expected Credit Loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive.

Other Financial Assets: - The Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

(c) Cash & Cash equivalents

Cash and cash equivalents in the balance sheet comprise of cash at bank and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts if they are considered an integral part of the Company's cash management.

(d) Taxation

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid/recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with Income Tax Act, 1961.

Current and deferred tax are recognised in profit and loss, except when they relates to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision.

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amounts.

Deferred income tax are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each reporting date. Deferred tax asset/liability is measured at the tax rates that are expected to be applied to the period when the asset is realized or the liability is settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid which is considered as an asset if there is probable evidence that the Company will pay normal income tax after the tax holiday period.

(e) Employee Benefits

(i) Short-term Employee Benefits:-

Liabilities for short-term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Post-Employment Benefits:-

Defined Benefit Plans:-

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in 'Employee Benefits Expense' in the Statement of Profit and Loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in Other Comprehensive Income. These are included in 'Retained Earnings' in the Statement of Changes in Equity.

(f) Earnings Per Share

Basic earnings/ (loss) per share are calculated by dividing the net profit/ (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period and also after the Balance Sheet date but before the date the standalone Ind AS financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings/ (loss) per share, the net profit/ (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

(g) Provision, Contingent Liabilities and Contingent Assets:

A provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance costs.

Contingent Assets and Contingent Liabilities are not recognized in the standalone Ind AS financial statements.

Company's policy is to carry adequate amounts towards Provision for Standard Assets, Non-Performing Assets (NPAs) and other contingencies. All loans and other credit exposures where the installments are overdue for ninety days and more are classified as NPAs in accordance with the prudential norms prescribed by the National Housing Bank (NHB). The provisioning policy of Company covers the minimum provisioning required as per the NHB guidelines.

Provisions are established on a collective basis against loan assets classified as "Standard" to absorb credit losses on the aggregate exposures in each of the loan portfolios based on the NHB Directions. A higher non-performing asset provision may be made based upon an analysis of past performance, level of allowance already in place and Management's judgment. This estimate includes consideration of economic and business conditions. The amount of the allowance for credit losses is the amount that is required to establish a balance in the Provision for Non-Performing Assets Account that management consider adequate, after consideration of the prescribed minimum requirement under the NHB Directions, to absorb credit related losses in its portfolio of loan items after individual allowances or write offs.

(h) Leases

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases using the modified retrospective approach whereby a lessee applies the new standard from the beginning of the current period. The lessee calculates the lease asset and lease liability as at the beginning of the current period and recognized an adjustment in equity at the beginning of the current period. Accordingly, a lessee will not restate its prior period financial information under this approach.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets are subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any. The right-of-use assets is

depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-of-use asset, and finance cost for interest accrued on lease liability.
